## Top Skills

Python  
Quality Assurance Analysis  
Test Coverage

## Certifications

Automation Testing Engineer  
Front-End Web Development (ReactJS)  
Developing SQL Data Models  
Programming with Python  
Front-End Web Development (JavaScript)

# Brajeswar Ghosh

Software Test Automation Engineer | Python | Java  
Kolkata, West Bengal, India

## Summary

From Engineering to Automation Testing: My Journey of Growth & Adaptation

I embarked on my professional journey after graduating in Applied Electronics & Instrumentation Engineering from Dr. B.C. Roy Engineering College (Class of 2020). My career took an unexpected yet exciting turn when I joined XL Dynamics in December 2020 as a Financial Analyst. Numbers, reports, and analytics became my playground, but my curiosity for technology and problem-solving led me toward a different path.

In January 2022, I transitioned into a Manual Test Engineer role, diving deep into software testing, quality assurance, and bug hunting. This shift ignited my passion for ensuring flawless software experiences, and I knew I had found my calling.

Determined to level up my skills, I joined STAagile in August 2023 to master Automation Testing. Through hands-on projects, I gained expertise in Selenium, Java, Python, and testing frameworks, sharpening my ability to create robust automated test suites.

By July 2024, my efforts paid off when I secured an Internship as an Automation Test Engineer at Mihup Communication Pvt. Ltd.. Just three months later, in October 2024, I officially stepped into the role of a Full-time Automation Test Engineer—turning my aspirations into reality.

## What Drives Me?

Ensuring software quality through automation & efficiency  
Continuous learning & adapting to new technologies  
Solving complex challenges in the testing landscape  
What's Next?

I'm always eager to connect with like-minded professionals, collaborate on exciting projects, and explore opportunities that push my boundaries. Let's connect and build something amazing together!

---

## Experience

Mihup.ai

7 months

Software Test Engineer

October 2024 - Present (4 months)

Kolkata, West Bengal, India

- ❖ Collaborated with cross-functional teams to understand business requirements and provide analytical solutions.
- ❖ Optimized end-to-end testing automation suite, improving efficiency by 40%.
- ❖ Utilizing automation testing tools to execute test cases, identify bugs, and report irregularities.

Intern Software Test Engineer

July 2024 - October 2024 (4 months)

Kolkata, West Bengal, India

- ❖ Collaborated with cross-functional teams to understand business requirements and provide analytical solutions.
- ❖ Optimized end-to-end testing automation suite, improving efficiency by 40%.
- ❖ Utilizing automation testing tools to execute test cases, identify bugs, and report irregularities.

StarAgile

Software Test Automation Engineer Intern

August 2023 - July 2024 (1 year)

Bengaluru, Karnataka, India

- ❖ Utilizing automation testing tools to execute test cases, identify bugs, and report irregularities.
- ❖ Working closely with the software development team to ensure comprehensive test coverage.
- ❖ Familiarity with various testing methodologies, including Agile.
- ❖ Proficiency in programming languages relevant to automation testing.
- ❖ Quantifying the impact of automated testing (e.g., time saved, improved efficiency).

XL Dynamics India Pvt. Ltd.

2 years 3 months

### Manual Test Engineer

January 2022 - February 2023 (1 year 2 months)

Kolkata, West Bengal, India

- ❖ Collaborated with cross-functional teams to understand business requirements and provide analytical solutions.
- ❖ Optimized end-to-end testing automation suite, improving efficiency by 40%.
- ❖ Exhibited dedication by working independently on intercept shifts, and completing 9-10 applications daily.
- ❖ Participated in the development of QTP automated systems, reducing manual testing efforts by 25%.
- ❖ Assisted in creating performance test scripts using LoadRunner, improving stress testing efficiency by 20%.
- ❖ Conducted workload assessments and devised new operational processes that led to a 40% increase in productivity.

### Financial Analyst

December 2020 - January 2022 (1 year 2 months)

Kolkata, West Bengal, India

- ❖ Performed various additional administrative tasks as and when required.
- ❖ Exhibited dedication by working independently on intercept shifts, and completing 40-45 applications daily.
- ❖ Collaborated with cross-functional teams to analyze business performance data and market trends, resulting in the identification of cost-saving opportunities and revenue growth strategies.
- ❖ Managed a process re-engineering project to improve and consolidate end-to-end service processes; restructured communication flow among 10 departments and cut down paperwork by 75%.

### Linux Open Source Community

#### Linux Kernel Developer

July 2018 - October 2019 (1 year 4 months)

Asansol Area, India
